Cleans Carpet Tiles Perfectly

Carpet tiles are finding more uses in all types of facilities. Versatile and flexible, they can be the ideal floor covering...until you need to clean them.

Carpet extractors, shampoos, and bonnet systems may apply too much moisture to carpet tiles, but the BR 13/1 MW from Tornado[®] cleans them perfectly.

Tornado's BR 13/1 MW uses a soil encapsulation-type system to clean carpets using little or no moisture.

The BR 13/1 MW's cylindrical brushes agitate and lift carpet fibers, removing surface-level soils and leaving carpet tiles clean and dry in minutes.
