Simple to use, go-anywhere design,
professional extraction performance

Tackle upholstery, staircases, drapes, and other challenging cleaning applications with the PZ 100 spray extraction cleaner. Move from room to room with ease with this highly mobile electric unit. This compact unit is perfect for cleaning auto interiors and for spot cleaning office areas and retail sales floors. The unit can even handle your spray extraction needs for small carpeted areas. The PZ 100 sprays solution deep down into carpet, dissolves dirt, and recovers the dirty solution with ease and efficiency.

The unit's solution tank has a filter for pump protection as well as a convenient water level indicator. The recovery tank doubles as a removable bucket that is easy to carry and dump when full. The PZ 100 includes a spray suction hose, floor tool, and utility hand tool. Accessories are storable on-board, and two large wheels and two castors allow the unit to smoothly follow the operator's movements during use.

PZ 100

Ease of use
The recovery tank is a removable bucket for easy transport and disposal.

Versatile
The PZ 100 is perfect for hotel rooms, offices, auto interiors and a variety of other applications.

Convenient
On-board tool storage and the unit's mobility are among several features that make for ease of operation.
