News Story

Floor Burnisher comes with air filtering system.

March 28, 2008 - With ability to protect indoor air quality, 2500 B Series of Clean-Air Glazers deliver 2,500 rpm with adjustable pad pressure. Suited for high-speed burnishing, units have sloped housing to improve operator view, safety switches to prevent operation when cover housing is removed, and rear bumper that facilitates pad changing.

Floor Burnisher comes with air filtering system.

company has a long history of developing innovative products and applying the latest technology to increase productivity, reduce costs, and improve safety.

Tornado's new line of 2500 B Series of Clean-Air Glazers are the industry's top performers when it comes to high-speed burnishing.

Boasting 2500 rpms with adjustable pad pressure, these machines take the "wet look" to a new high.

The 2500 B has a sloped housing to improve operator view, safety switches to prevent operation when the cover housing is removed, and have a rear bumper that make changing pads quick and easy.

What's more, the 2500 B has an air filtering system, helping protect indoor air quality.
